## **MIV WATTS**

Interior designer Miv Watts travelled extensively with late husband Peter, road manager and sound engineer for Pink Floyd. She now divides her time between Australia and Norfolk. Watts calls Byron Bay, her Australian home, 'an international Chinese whisper'. Long popular on the backpacker trail, this 'subtropical Sussex' is featured in 'Love shack' (page 166). 'Byron has a stylish simplicity with an outdoor spirit,' she says. **Culinary turn-on** 'A daily soy latte at the Federal Store café, with a macadamia and honey cookie.'
